◆ WHAT YOU GET

Excel & Power BI Training: what we deliver

Your teams already hold the data. We teach them to clean it, analyse it and present it, with examples from maintenance, stores and operations. Run it for one department or an entire organisation.

01

Excel Essentials to Advanced

Formulas, lookups, conditional logic, data cleaning and error-proof spreadsheets.

02

Pivot Tables & Dashboards

Summarise thousands of rows in seconds and build clear, interactive Excel dashboards.

03

Power BI for Reporting

Connect data, model it, and build visuals and reports that managers can read at a glance.

04

SAP Data into Excel & Power BI

Work with SAP exports for maintenance KPIs, spare parts and inventory analysis.

05

Large-Audience & Corporate Batches

Webinars, workshops and multi-batch programmes for large teams, on-site or online.

BEST FOR

Corporates, training departments and institutions upskilling large groups in analysis and reporting.

◆ HOW IT WORKS

From first call to working results

1

Skills assessment

Understand current level and business goals

2

Tailored curriculum

Use your own data types and KPIs

3

Live delivery

Workshops or online sessions, small or large groups

4

Practice files

Exercises and templates to keep

5

Assessment

Check progress and clear doubts

6

Follow-up

Support after the programme ends

◆ WHAT YOU GAIN

- ✓ Faster, more accurate reporting
- ✓ Fewer manual spreadsheet hours
- ✓ Dashboards managers actually use
- ✓ Skills for beginners and power users
- ✓ One programme for many teams and locations
