◆ WHAT YOU GET

Inventory & Store Analysis: what we deliver

Spare parts inventory ties up working capital, yet a missing critical part stops production. We analyse your store data to find the right balance.

01

ABC Analysis

Classify spare parts by value and usage pattern.

02

Slow / Non-Moving Analysis

Find slow-moving and obsolete items and decide what to do with them.

03

Stock Optimisation

Recommendations for optimal stock levels.

04

Criticality Analysis

Identify the spare parts that need priority management.

05

Inventory Valuation

Accurate valuation of your inventory assets.

BEST FOR

Stores and maintenance teams carrying years of spares without a clear view of what matters.
